PERSONAL PROJECTS

Combined project of all react concept

- Created a Project which contains 8 minor react projects like Meme Generator, AirBnB clone, React form, Pets Contact, Piano Boxes, Setup and punchlines, Window Tracker and Light Mode - Dark Mode. These projects contains all important concepts in react which is easy to understand for all.
- ReactJS, Figma for UI Design.

Online Food Order App (UI/UX Case Study)

- Created an Online Food order app with High Fidelity Design Prototype for UI/UX Course case study.
- Figma Software

Yoru - Online Food Ordering System and Scratch Card (Internship Fullstack Project)

- This project is based on Food ordering system from restaurant/cafe, In which after ordering a food the customer will receive a mail of a scratch card and if the total amount of order is greater than a specific amount then the customer will receive any one free dish or nothing depending on the total amount.
- Used ReactJS and Typescript for Development for Front-End
- Used Java, Springboot, Mysql for Back-End
