Work Experience

Jio Platforms Limited — *Associate QA Engineer* (Jan 2024 - Present)

- Conducted **functional and automated testing** for MyJio, Jio.com, and JioTranslate using **Python, Robot Framework, and Selenium**.
- Identified **usability issues**, collaborated with developers, and suggested **UI/UX improvements**.
- Reverse-engineered **UI components** to identify **design inconsistencies** and optimize **user flows**.
- Independently **redesigned screens** to improve **accessibility and usability**.
- Balanced **QA responsibilities** while actively working on **UI/UX projects and certifications**.

Swapnil Enterprises — *Software Developer Intern* (Feb 2023 - Aug 2023)

- Developed the **frontend** for an **Online Food Ordering App** using **ReactJS and TypeScript**.
- Designed and implemented **UI/UX improvements** for better **navigation and usability**.
- Built **responsive and interactive features**, ensuring **seamless performance** across devices.
- Collaborated with **backend developers** to integrate **APIs** and optimize **app functionality**.

UI/UX Projects

Serenity - Mental Wellness Companion App

- Designed a **mindfulness app** for **stress relief and well-being**, conducting **user research** to identify **pain points**.
- Created **wireframes, high-fidelity prototypes, and user flows** in **Figma**, refining designs through **usability testing**.
- Implemented **UI features** like **personalized recommendations, breathing exercises, and progress tracking**.
- Conducted **A/B testing** to optimize **interface usability and interaction patterns**.
- View the project here: [Serenity - Behance Project](#).

Smart Home Responsive Dashboard

- Designed a **responsive dashboard** for **smart home management** with **intuitive navigation and controls**.
- Created **high-fidelity wireframes and interactive prototypes** to enhance **usability**.
- Integrated **real-time monitoring features** for **device control and energy tracking**.

Skills Summary

- **UI/UX Design:** Wireframing, Prototyping, User Research, Usability Testing, Persona Creation, UI Components & Inclusive Design, Responsive & Adaptive Design
- **Tools:** Figma, Git, JIRA
- **Frontend Development:** HTML, CSS, React.js, TypeScript
- **Testing & Analysis:** Manual & Automated Testing, Usability Testing, Reverse Engineering

Certifications

- **Foundations of User Experience (UX) Design** - Google
- **Create High-Fidelity Designs and Prototypes in Figma** - Google
- **Start the UX Design Process: Empathize, Define, and Ideate** - Google
- **Design Thinking for Innovation**
- **Figma Essentials Training** - LinkedIn

Education

MGM's Jawaharlal Nehru Engineering College, Chh. Sambhajinagar

B.Tech in Computer Science & Engineering

(2019 - 2023)

Deogiri College, Chh. Sambhajinagar

Higher Secondary Education (12th)

(2018 - 2019)

Additional Information

- Passionate about **UI/UX design** with a strong foundation in **software development and quality analysis**.
- Actively working on **personal UI/UX projects** to enhance **design skills and user research expertise**.
- Open to opportunities that align with **UI/UX roles**, leveraging **testing experience and design expertise** to create seamless user experiences.
